

Valves

**Check Valve
Modifications**

**WHEATLEY
Valve Parts**

Valve Manufacturers and Types

WHEATLEY/TOM WHEATLEY

API 6D Swing Check Valves
API 6D Piston Check Valves
API 6D Nozzle Check Valves
Threaded Swing Check Valves
Wafer Check Valves
Subsea Check Valves
API 6A Swing Check Valves

AOP

WKM - Ball Valves, HP Butterfly Valves, Thru Conduit Gate Valves
NUTRON - Ball Valves
DEMCO - DPV Gate Valves, Butterfly Valves
GROVE- Trunnion Ball Valves, Thru Conduit Gate Valves
GENERAL - Double Block & Bleed Plug Valves
ORBIT - Rising Stem Ball Valves
TEXSTEAM - Non-Lubricated Plug Valves
AOP - Trunnion Ball Valves

SCV VALVE

API 6D Thru Conduit Gate Valves
API 6D Trunnion Ball Valves
API 6D Swing Check Valves
API 6D Piston Check Valves
Floating Ball Valves
Lubricated Plug Valves

STREAM-FLO

API 6D Swing Check Valves
API 6D Piston Check Valves
API 6D Nozzle Check Valves
API-6A Swing Check Valves
Wafer Check Valves
Threaded Swing Check Valves

STREAM-FLO FUSION

API 6D Trunnion Ball Valves
Flanged Floating Ball Valves
Threaded / Socketweld Ball Valves

MICROFINISH

API 6D Trunnion Ball Valves
Floating Ball Valves
Swing Check Valves
Exotic Alloy Valves
Brine Service Valves
Cryogenic Valves

CHECK-ALL VALVE

Silent Check Valves
Spring Loaded Check Valves
Poppet Check Valves
Inline Check Valves

AMERICAN WHEATLEY

Triple Duty (TDV) Valves
Suction Diffusers/Flow Diverters
Fabricated Vertical Pipeline Strainers
Y Strainers
Non-Slam Check Valves
Butterfly Valves
Balancing Valves

CHAMPION VALVE

Wafer Style Dual Check Valves
Wafer Style Rubber Lined Dual Check Valves
Wafer Style Single Disc Check Valves
Wafer Style Single Disc Short Pattern Check Valves
Wafer Style Single Disc External Spring Check Valves
Long Pattern Axial Flow Nozzle Check Valves

Norwood Valve, LLC is a valve and equipment supplier located in Houston, TX. Norwood Valve supports oil & gas pipeline & production, chemical, power, and water industries. Working with manufacturers and stocking partners, Norwood Valve can help with an array of valve types for any application.

Norwood Valve specializes in *WHEATLEY & TOM WHEATLEY* Check Valves.

Norwood Valve Supplies Check Valve Modifications

Lock Open Levers / Gear Operator
 Hydraulic Dampener (Slam Retarder)
 Counterweight Assembly
 Spring Return Clapper
 Limit Switch / Position Indicator
 Fusible Link
 Hydrotesting

Subsea Modifications
 Conduit Clapper
 Flange Face Change (RF/RJ/WE)
 Seal Change
 Seat Overlay

Norwood Valve Supplies Parts for *Current *WHEATLEY* Valves and Valves No Longer in Production

**Current WHEATLEY Valve Model 510/511*

**Current TOM WHEATLEY Valve Model 510/511*

**Current TOM WHEATLEY Valve Ville Platte, LA*

Norwood Valve, LLC carries on a Wheatley Family tradition of excellence in the valve industry going back to 1916. In 1916, brothers Frank and Tom Wheatley founded *Wheatley Bros Foundry & Machine* in Kansas City, MO. By 1926, with an ever increasing demand for oilfield products in the mid-continent, *Wheatley Bros* opened a facility in Tulsa, OK. Their new company, focused on oil & gas, was named *Wheatley Bros Pump & Valve*. In 1934 brothers Frank and Tom decided to part ways. Legend has it that this was decided on a coin toss. This led to *Wheatley Bros* becoming *Frank Wheatley Pump & Valve* and Tom moving to Houston, TX and founding the *Tom Wheatley Company* in 1936.

In the mean time, brother Charles Wheatley was working hard at a professional baseball career as a pitcher. Charles made it to the majors in 1912. He holds an A.L. record for the most wild pitches thrown in a single game (5). Upon leaving baseball, Charles went to work for his older brother Frank in 1939. In 1954, Charles left *Frank Wheatley Pump and Valve* and founded the *Charles Wheatley Company* in Tulsa, OK.

From this point the three brothers were competing and becoming leaders in the valve industry. Each had their notoriety for specific products, but all were known for check valves. *FWI (Frank Wheatley Industries)* was first to sell in 1968. Followed by the *Charles Wheatley Company* in 1972 to *Tesoro*. In 1973 *FWI* sold to *Tesoro* as well. This merger led to the *WHEATLEY* brand manufactured today. The *Tom Wheatley Company* sold in 1982. Over the years the brands were bought and sold but persisted. In 1993 *Wheatley TXT* acquired *Tom Wheatley Valve Co.* This brought the Wheatley brothers' companies back together again after 59 years. *WHEATLEY & TOM WHEATLEY* brands are currently owned by *Cameron SLB*. *Norwood Valve, LCC* carries on a *WHEATLEY* Family legacy of of quality, innovation, and service in the valve industry.
